

EMPLOYEES SUPPORT IN SKILLS 2016-2018

Do you have employees who would benefit from skills development?

Are you a business with fewer than 250 employees?

The Employees Support in Skills project (ESS) supports SMEs within the Marches Area to upskill employees aged 16 and above to develop their knowledge, skills and career prospects.

This is achieved by delivering local training that meets the requirements identified by the Marches Local Enterprise Partnership. This project also supports employees who are under notice of redundancy to develop tangible skills needed to secure further employment in a competitive market.

Is your business in one of the following sectors?

- Food and drink production and processing including land base
- Advanced engineering and manufacturing
- Environmental technologies
- Agriculture
- Food and drink
- Visitor economy (leisure and business tourism)
- Tourism and leisure
- Defence and securities (Inc. technologies) and social enterprise
- Construction
- Wholesale and retail
- Health and social care
- Business and professional services
- Leadership and management

Our funding can provide short courses from intermediate up to higher level skills that respond to your needs

We can also assist with:

- Progression to the next level
- Improvement of English and Maths
- Development of leadership and management skills
- Support fledgling business “start-ups”
- Apprenticeships at all levels
- Help to engage with apprenticeships
- Redundancy Support
- Support learners with learning difficulties or disabilities (LLDD) and vulnerable adults with the workplace
